Disney's Yacht and Beach Club Resorts

Crisp in the Florida sun, Disney's Yacht and Beach Club Resorts are reminiscent of gracious summer living along the craggy Eastern Seaboard. Although separate, the two distinctive resorts blend like a watercolor into one shared impression.

Echoing the oyster grey clapboard and blue-and-white "stick" houses of the late 1800's, they are reminders of grand old hotels found along the shore from Newport to the Hamptons. Common to both will be an irresistible fantasy lagoon where you can snorkel in sparkling freshwater and sun on ribbons of sugar-sand beaches. Now booking for Fall 1990 opening.*

Photo Tips from Kodak

Add depth to your pictures by "framing" the subject with a foreground object such as an arch or tree branch.

To capture some of the details of exhibits, move in close. With the close-up setting on some Kodak cameras you can get as close as 18 inches.

Personalize pictures of attractions by including friends or family members in the foreground.

To help make a complete picture story, take photographs at the "photo spot" signs throughout EPCOT Center. You can make title pictures by photographing identifying signs.

If you have a 35mm camera, photograph outdoor subjects after sundown and indoor subjects using fast films such as KODACOLOR GOLD 400 Film (set exposure meter at 400) and KODACOLOR VR 1000 Film (set exposure meter at 1000).
